

"Invisible Scars": *Intersection of Domestic Violence & Brain Injury*

This course will expose participants to the intersection of domestic violence, specifically interpersonal/intimate partner violence, and traumatic brain injury. Post-injury effects and outcomes will be addressed along with screening tools to increase identification of survivors and potential functional concerns including post-concussive syndrome.

This course is being offered multiple times March - June. **FREE** to attend, **VIRTUAL** and open to the public.

A total of 3 contact hours for PD/CEUs.

For additional information or questions please email Tiffany Wilkinson at info.erllc@gmail.com

To register please visit our **EVENT PAGE**. Thank you

Hosted by Empowerment Research, LLC in a partnership with the Arizona Governor's Council on Spinal & Head Injuries
